The Goebel Law is the most fitting monument that GOEBEL could have.

KENTUCKY continues to hold its place as the headquarters for "Government without the consent of the governed."

WHEN it comes to a question of Expansion vs. Contraction it will not take the American voters long to make up their minds.

WITH MCKINLEY and BRYAN as Presidential candidates, President McKINLEY was figured as a five to one chance in New York.

AN increase of \$50,000,000 in the bank note circulation is already in sight as the result of the enactment of the new currency law.

THE Democratic party has nursed a great many boomers, but it never got hold of anything quite so unpleasant as the Idaho riots.

FIVE to 10% voluntary increase of wages has been granted by the Leslie Lumber Company of Michigan City. Thus does prosperity make itself felt in the West.

THE Pennsylvania Democrats will go to Kansas City solid for Mr. BRYAN. Later on Pennsylvania will go into the Electoral College solid for President McKINLEY.

THE foreign shipping interests, which are all opposed to the pending shipping bill, seem to have given up the hope of defeating its passage by the present Congress.

THE burning of the magnificent convention hall at Kansas City was a public misfortune. Nobody wished such ill-luck to the party that makes a specialty of calamity.

AMERICAN manufacturers are sweeping everything before them in Siberia. When we establish a great commercial mart at Manila, our expansion in the Orient will be unparalleled.

THE Senate is likely to pass the shipping bill before adjournment. The feeling seems to be general that the Rehabilitation of our merchant marine in the foreign trade cannot be begun too soon.

LINCOLN, the home of Colonel BRYAN, elected the Republican municipal ticket the other day by the largest majority it has returned in years. The Colonel has a good-sized bunch of the enemy's country right at home.

THE Democrats of Raleigh, N. C., have endorsed the Hon. JULIAN S. CARB, the millionaire tobacco manufacturer, for United States Senator. The Democrats, however, are violently opposed to millionaires in the other party.

THE Cour d'Alene mining riot investigation continues to elicit nothing but commendation for the action of Governor STEVENSON in trying to uphold law and order. The dastardly outrages committed by the rioters appear the more cowardly as the testimony increases.

Measles has struck Ripley. Mr. Clarence L. Dobyns is seriously ill with typhoid fever at the home of his mother, Mrs. Amanda Dobyns, at Cincinnati.

The remains of George Johnson, colored, who died Friday night at Washington, were interred yesterday afternoon.

The Ladies' Committee of the Y. M. C. A. will meet in rooms Tuesday afternoon, May 1st, at 8 o'clock. Full attendance desired.

## THE COMMONWEALTH.

TAYLOR HAS RETURNED.

He Spends a Day at the Executive Mansion, and No Papers Were Served Upon Him.

Frankfort, Ky., April 30.—W. S. Taylor returned from Washington and spent Sunday at the executive mansion with his family. He was not expected to arrive until evening, and but few people were aware of his presence in the city till evening, when he appeared at the railroad station and took O. C. & O. train to Louisville, leaving here at 6 o'clock. He was accompanied home from Washington by K. J. Hampton, secretary of the republican state central committee.

The presence of Mr. Taylor in the city was known to the local officers and to those in charge of the prosecution, and the fact that a warrant of arrest was not served upon him is construed to mean that the indictment will be held up and no process issued on it for several days. The indictment was returned in open court the day after those against Finley, Powers, Culton and others were returned, but it was not entered of record, and is now understood to be in the possession of Judge Cantrill.

### CHAIR SHOPS BURNED.

Fire in the Penitentiary at Frankfort, Ky., Destroyed the Building and All its Contents.

Frankfort, Ky., April 30.—Fire broke out in the varnish room in the penitentiary chair shop and completely destroyed the building and contents, entailing a loss estimated at from \$50,000 to \$75,000. The strenuous efforts of the Frankfort fire department, assisted by a squad of soldiers and the prison fire department, kept the fire confined to the chair shops, and saved the shoe shop, broom shop and millinery. There was \$20,000 insurance on the building and \$10,000 on the stock and raw material.

The building and machinery belong to the state and the stock to the Frankfort Chair Co., controlled by A. D. Martin, of Chicago. It will require several months to rebuild the shops. Meanwhile about 600 men who were earning 40 cents a day for the state will be out of employment. The firemen by grand work prevented the flames from reaching the tanks of naphtha stored in the building.

### SUSPECT CASES.

Beginning of a Trial at Frankfort, Ky., Which Will Continue for Several Days.

Frankfort, Ky., April 30.—Seven of the suspects charged with being either principals or accessories in the murder of William Goebel were arraigned in the circuit court this morning. They were republican Secretary of State Caleb Powers, Henry E. Young, Harland Whitaker, John W. Davis, Wharton Golden, W. H. Culton and Richard Combs, alias "Tallow Dick," colored.

Motions for bail were made in each case, and motions for a change of venue have been applied for by Powers, Davis, Whitaker and Combs. The large array of witnesses who have been summoned to give testimony were put upon recognition bonds, and the hearing of proof begun, with the prospect of consuming several days.

One State Officer Not in Litigation. Frankfort, Ky., April 30.—Attorney General Breckinridge enjoys the distinction of being the only state officer whose title is not in litigation. Judge Clifton E. Pratt, the republican contestant, as anticipated several days ago, quit the contest, and, on failure to file a supersedeas bond, undisputed titles were passed to Mr. Breckinridge.

Weeked Three Engines. Somerset, Ky., April 30.—South-bound Southern fast freight No. 31 became uncontrollable on Norwood hill and collided with a yard engine in the Somerset yards, wrecking three engines and ten freight cars. The trainmen all jumped and escaped unhurt. The fast freight was a double-header. Traffic was not delayed.

Found Drained and Bleeding. Earlinton, Ky., April 30.—A Negro giving his name as Charles Griffin, of Harrodsburg, Ky., was found injured and bleeding in the railroad yards here. He claimed to have been beating his way on the Chicago limited express to Evansville, and said he was knocked off by some unknown person. His injuries are probably fatal.

Cassius Clay's Divorced Wife Dead. Lexington, Ky., April 30.—Mrs. M. I. Warfield Clay, the divorced wife of Hon. Cassius M. Clay, the famous sage of Whitehall, died here Sunday night, in her 86th year, of infirmities of old age. She was the mother of Brutus J. Clay, now United States commissioner to the Paris exposition.

For the Defense. Louisville, Ky., April 30.—The jury in the case of Thomas E. Hindman against the First National bank and C. B. Sullivan decided in favor of the defense. Hindman sued to recover \$10,000 for stock he claims he was induced to purchase, and which proved worthless.

Promises for Kentucky Derby Day. Louisville, Ky., April 30.—When the saddling bell rings at Churchill Downs next Thursday it will inaugurate what promises to be the greatest meeting in the history of the Louisville derby club. It is expected that fully 20,000 will witness the Kentucky Derby.

I will pay your own price for a match to my hearse horse.

# BOERS GOT AWAY

Gen. French's Cavalry Are Returning to Bloemfontein Giving up the Pursuit.

## ELABORATE OPERATIONS ALL FAILED

Nothing to Show When the Main Advances Is to Begin If It Is Even Contemplated.

One Correspondent Describes Lord Roberts' Army as a Wreck, Because It Is Without Horses and Without Transports.

London, April 30.—The only dispatch from Lord Roberts was the usual list of deaths and sicknesses. The flood of newspaper dispatches describing the recent operations throws no light whatever on the present position of affairs or on the great question as to when the main advance is to begin. The Standard's announcement that Gen. French's cavalry are returning to Bloemfontein is clear proof that there is no further hope of catching the retreating Boers, and the London papers are beginning to display impatience at the practical failure of the elaborate operations of last week.

The Standard says: "It is disheartening to find that these elaborate maneuvers have had so small a result." The Daily Chronicle adds: "We are reluctant to criticize Lord Roberts, but it is impossible to shut our eyes to the fact that during the last ten days we have gained very little from our enormous display of force."

Without doubt these operations have been of a very exhaustive nature and will entail further delay. The Bloemfontein correspondent of the Times, writing on March 2, after the Paardeberg affair, describes Lord Roberts' army as "a wreck," because it was without horses and without transport. The Bloemfontein correspondent of the Post speaks now of the urgent need at present and always of more horses.

There is very little news from other quarters. The Daily Mail publishes a statement from Col. Con, who was blamed for the loss of the guns at Colenso, that in advancing the guns as he did he merely obeyed orders, and that the staff was quite ignorant of the proximity of the Boer position.

The sudden decision of the Boer peace delegates to go to America is attributed to the fact that the government of the Netherlands, after sending all the European capitals, told them they had nothing to hope from Europe.

Col. Dalgety's force at Wepener numbered 1,700. His losses during the siege were 30 killed and 149 wounded. It is reported that there was an artillery engagement yesterday at Kame Siding, but no details have been received.

## FIGHT AT ISRAEL'S POORT.

It Lasted All Day and Extended Over a Frontage of Over Ten Miles.

London, April 30.—A special dispatch from Thaba N'chu, dated Thursday, describing the fight at Israel's Poort, which is about seven miles west of Thaba N'chu, says: "The British and Boer armies, the kopjes all day from three positions. The Boer positions were extremely well chosen, consisting of a long range of very precipitous hills, with narrow passes (passage between) commanding a vast extent of country. The mounted infantry made a fine turning movement, while the foot infantry advanced to within 2,000 yards under good shelter."

"During the afternoon the battle became general and extended over a frontage of ten miles. The rifle, Maxim and artillery firing was deafening. At 3 o'clock the Canadians advanced in open order, but, meeting with a terrific fire, they took shelter in a donga. When they finally captured the kopje the Boers were seen retreating north and east with wagons, and subsequently, when the infantry made a dash, the rest of the enemy fired a few shots and cleared off."

## Will Hold Thaba N'chu.

Bloemfontein, April 30.—It is understood that the British will continue to hold Thaba N'chu, owing to its strategic importance, and especially with a view to checking future raids. The commandos that have recently been operating in the direction of Thaba N'chu are melting away. The Boers quietly returning to their farms, and many of them taking the oath of allegiance. Experience has shown, however, in many cases that this is only a pretense to enable the Boers to create disturbances on the rear of the British, and vigorous methods will probably be necessary to force real disarmament.

## Peace Commissioners Coming Here.

The Hague, April 30.—The members of the Boer peace commission will sail from Rotterdam for the United States next Thursday evening by the Holland-American line, steamship Massachus. Dr. Leyds, Dr. Mollath will not accompany the delegates.

## Commandant Olivier Wounded.

Albion North, April 29.—It is reported here that Commandant Olivier was wounded at Wepener last Mon-

day. Six New Zealanders, while scouting, fought six Boers, killing three and wounding three. One New Zealander was wounded. The inhabitants of Rouville do not know to which government they belong, as there is no civil administration there.

## British Troops Will Recapture.

London, April 30.—According to a special dispatch from Thaba N'chu, dated Sunday, the British troops, now that the adjacent country is cleared of the Boers, who took Thaba N'chu in the direction of Ladybrand, will recapture for a short period.

## FLOOD SITUATION IMPROVED.

The Destitute and Suffering at Waco, Tex., Have Been Provided With Food and Clothing.

Waco, Tex., April 30.—The flood situation is now much improved, the destitute and suffering being nearly all provided with wearing apparel and foodstuffs. The citizens, especially the business men, gave out large quantities of clothing and food, which eliminated the suffering to a great extent. The principal difficulty the committee of cotton charity, which have the distribution of supplies in charge, are meeting with is a place to house the homeless. Many houses contain several families, and many are living in tents, waiting to see if the predicted overflow of the Brazos materials.

The prospects of the Brazos not overflowing are exceedingly bright, as the river has been steadily falling for the past 24 hours and is now only a few feet above its normal mark. The crop situation in the bottom is clearly worse than on the former deluge several weeks ago, and many of them will have to be repatriated, thus throwing the cotton charity, which is already late, backward about six weeks.

## Attempted Murder and Suicide.

He went into the rear yard and cut his own throat. He died in an hour. The woman will recover. The couple had quarreled and separated.

## Thrown From a Train.

# FOOT BRIDGE FELL

First Serious Accident Within the Grounds of the Great Exposition in Paris.

## NINE PERSONS CRUSHED TO DEATH.

Nearly Forty Others Were Seriously Injured, While Many Others Were But Slightly Hurt.

The Bridge Had Just Been Condemned, and People Were Not Allowed Upon It, but Were Permitted to Pass Under It.

Paris, April 30.—An accident within the exposition grounds caused the death of nine persons and injured about 40. A temporary bridge, unable to withstand the Sunday crowd, broke. The accident threw a pall over the happiness of an immense throng who had profited by the magnificent weather to visit the exposition. It was probably the record in attendance. Not merely the interior of the grounds, but the precincts also were crowded, and the concourse was particularly great along the Avenue de Suffren, which forms the northern boundary of the grounds. Here is situated a big sidewalk, the Celestial Globe. A footbridge, on which the finishing touches were being put, crosses the Avenue de Suffren, connecting the sidewalk with the exhibition. It was constructed of wood, with a stucco facade, and with a plastered tower at each end. Strangely enough, the bridge had been condemned only Sunday morning by the

children spring back and escaped with a few scratches. A cyclist had his wheel smashed, but himself escaped unhurt.

The weighty plaster towers seemed to be responsible for the fall of the structure.

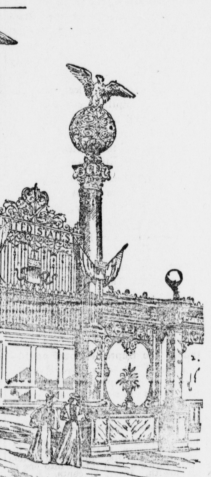

The disaster was the leading topic of conversation in the cafes and at the other Paris resorts in the evening, and strong criticism was leveled against the exposition authorities for allowing an unfinished structure to jeopardize the lives of citizens, fears being expressed that the incomplete state of the works within the exhibition grounds themselves might lead to a similar accident. It should be said, however, that the exhibition authorities are not responsible for the defective construction of the footbridge, which was erected by the management of the Celestial Globe. As a result of the accident M. Lepine, prefect of police, has ordered the closing of several sidewalks, the structural arrangements of which are considered dangerous.

## FORECAST OF CONGRESS.

The Principal Topics Which Will Be Discussed in the Senate and House This Week.

Washington, April 30.—So far as can be now foreseen, the week will be given up largely to the Alaskan code bill and to appropriation bills in the senate. Senator Hawley, chairman of the committee on military affairs, has given notice that he will call up the army appropriation bill, and when this bill is disposed of it is probable that the fortifications bill will be taken up. There will be an effort to secure a disposition of the Alaskan bill, but as there is almost as much opposition to the Carter amendment as there was to the amendment suggested by Senator Hansbrough, it is

## THE PARIS EXPOSITION.

MAIN ENTRANCE TO THE AMERICAN MINES AND METALLURGY EXHIBIT.

## IMPOSSIBLE TO SAY WHETHER THE EFFORT WILL SUCCEED.

Senator Chandler on Wednesday will ask consideration of the resolution in the case of Senator Clark, of Montana, but there will be a request for more time to read the testimony, and the case probably will go over for at least several days more. On Thursday the senate will listen to eulogies on the late Representative Baird, of Louisiana.

The feature of the week in the house will be the Nicaragua canal bill, which will be considered Tuesday and Wednesday. The elimination of the section relative to the fortification of the canal removes the objections entertained by the friends of the Hay-Panamafe treaty, but because of that very fact the resentment of some of the democrats has been aroused. The bill, however, doubtless will command a very large majority when it comes to a vote. Thursday will be given up to the consideration of the "free homes" bill, and Friday to war claims.

## Desperate Character Kills Himself.

St. Wayne, Ind., April 30.—Louis Wiley, aged 35, suicided by shooting himself in the head near Mayville. Wiley served five years in the regular army and was a desperate character.

The stories of insurrection in Cuba are entirely unfounded.

James S. McKean, president of the Union Trust Co., of Pittsburgh, Pa., is dead.

Fire in the heart of the business center of Brownsville, Tex., destroyed property valued at \$75,000.

Many Japanese are leaving Vancouver and Victoria for the Klondike in the hope of securing work for wages or to wash abandoned ground.

Eight thousand Paris washerwomen have struck for higher wages and shorter hours, and serious inconvenience has already been caused.

The militia taking part in the Dewey day parade in Chicago have been instructed to carry five rounds of blank and five rounds of live cartridges. From the explosion from the hoodlum element, but not the real labor agitators.

## PROSPECT IN KENTUCKY.

### How a Decision of Federal Supreme Court Might Affect It.

Lexington Herald.

If the Supreme Court takes jurisdiction of the Kentucky case and reverses the judgment of our Court of Appeals, not only will all parties submit, but Kentucky will be at peace immediately. If such decision be rendered, the Beckham Government would at once dissolve; his army of occupation would be disbanded; the acts nominally enacted at the late session of the Legislature would be nugatory; there would be no election for Governor and the Presidential and Congressional election would overshadow the election of an Appellate Judge in the Montgomery District. Governor Taylor would be recognized by all departments and officers. There might be some questions arising which the Courts would adjudge, but they would not be numerous nor very important. If the Supreme Court refuses to take jurisdiction or affirms the judgment of our Appellate Court, Kentucky will be in a turmoil until after the November election. Until that election Mr. Beckham would be the acting Governor; his appointees would supersede the present officers in our asylums and charitable institutions. General Collier would at once disband the military at Frankfort. The two conventions would nominate candidates for Governor, and Judge of the Court of Appeals and to fill the vacancies in the two houses; and the state issues would overshadow the National election and the National issues. The issue would be the election by the people or by the Legislature. The unfortunate complications would be the subject of the most acrimonious debate. Governor Taylor was elected at the November election; was deprived of his office without a real hearing and by a false and fabricated journal, and was the object of a foul conspiracy to be made successful by bribery and perjury—these would be the charges made everywhere by the supporters of Governor Taylor. The very foundation of free institutions is free and honest elections; the people have the right and the only legal right of election; the highest duty of the citizen is to be obedient to the mandate of the voters; the polls; the count was a mere sham; a fraudulent pretext; the result was predetermined and the members were fraudulently selected, because they could be relied upon to do what was required; the "round robin" was a false action and the whole journal fabricated; these allegations will be pressed every day.

Under the Goebel Law the State Board, composed of Messrs. Poyntz, Fulton and Yonts, will appoint "Reliable" County Boards; these 119 County Boards will select "reliable" election officers; and everything known to the trained and disciplined corps of election veterans will be attempted, unless a wholesome dread of the Federal Courts overcomes the desire to win at all hazards and by all means.

The prospect is not an inviting one; the immediate future is not enchanting to one who loves Kentucky. And these days and events will be complicated by the trials under the indictments returned by the Franklin Grand Jury.

The whole country will be deeply interested in the Kentucky campaign; the Kentucky complications will enter into the canvass in other states.

We contemplate this canvass with profound reluctance and sincere pain. If indeed the Supreme Court could—with a good conscience—reverse the judgment of our Court, it would be a blessed result; it would give us peace, good order, the return of the reign of the people.

and in every neighborhood and at every gathering. And to these will be added attacks upon the prosecution of innocent men; illegal arrests upon warrants falsely sworn out by irresponsible blood-suckers and unworthy detectives; and charges of packed juries and prejudiced Courts will be solemnly made by men of the highest character and standing.

On the other hand the attacks and defenses will be equally bitter and exciting. Mr. Goebel was assassinated; the Legislature under the Constitution had the power to determine this contest, and did determine it according to the provisions of the statute. The assassination of Mr. Goebel; the use of the military; the conspiracy to use force because Governor Taylor knew he would be ousted, and all these were crimes against law and the forms of law. The Courts decided in favor of the Democrats and the decrees of the Courts are the last resort of contestants in a state of law and order; these and similar charges will be hurled at the nominees of the other party. In such a canvass National issues will be forgotten; National questions will be forgotten. It will be a bitter, unhappy, tumultuous campaign. Civil liberty will be at stake; free elections will be the real prize; the right of the people to elect their servants will be the true object of the fight. Neighborhoods will be divided; families will be divided; friendships will be broken. As representatives in Congress are to be elected there will be no question as to the jurisdiction of Federal Courts over crimes committed at this election.

Under the Goebel Law the State Board, composed of Messrs. Poyntz, Fulton and Yonts, will appoint "Reliable" County Boards; these 119 County Boards will select "reliable" election officers; and everything known to the trained and disciplined corps of election veterans will be attempted, unless a wholesome dread of the Federal Courts overcomes the desire to win at all hazards and by all means.
